International Travel

Just a reminder for some our International travelers that if your camper is departing from a country eligible for a Visa Waiver Program (VWP), you will need to apply for a ESTA Authorization Form (Electronic System for Travel Authorization) to enter the United States and to have this available when boarding the airplane from your home country. You must apply at least 72 hours prior to departure but earlier is recommended.

To see if your country is participating in the VWP please go to (<https://esta.cbp.dhs.gov/esta/>) or click [here](#).

If your country is listed, you can click on Individual Application when ready to apply. There is a small charge for a 2 year ESTA and your travel agent can apply for you if they know the information needed.
